IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor Tunica Teens In Action, Inc. Tunica Teens In Action, Inc. (Concerned Citizens for a Better Tunica County) is an African-American, grassroots, community based, and community lead, leadership development organization that is rooted in empowering the African-American low-income communities in Tunica County, MS and the Mississippi Delta since 1993.

Tunica Teens In Action, Inc. was formed in July 1999 when the young members of Concerned Citizens For A Better Tunica County decided that they wanted more individualized training to help them do better community organizing work with their adult allies. Tunica Teens In Action started out with 17 young people ranging between the ages of 11–20 who were led by Ashley N. McKay. These bright young people realized that they needed to develop their skills to help the community and themselves to succeed in a school system that had been on academic probation for over ten years.

Tunica Teens In Action was formally incorporated in 2011 and fully transitioned from Concerned Citizens FABTC, Inc. as a youth and female led youth of color organization. Tunica Teens In Action, Inc. is a non-profit 501(c)(3) community leadership development organization.

Concerned Citizens For A Better Tunica County was formed in 1993 when African-American grassroots low-income moms, dads, students, and other community activists came together to fight for education reform and fairness in Tunica County, MS. At that time, Tunica County was one of the poorest counties in the United States and when Rev. Jessie Jackson visited Tunica in 1985 he labeled it "America's Ethiopia" because of the devastating housing, economy, and community needs. Since 1993, Concerned Citizens For A Better Tunica County had been a leadership development and empowering organization for Education Reform, Youth Leadership Development, Housing and Job Reform, Democracy Organizing, and Environmental Justice. Concerned Citizens For A Better Tunica County, Inc. formally incorporated in 1997 and was a 501(c)(3) tax-exempt nonprofit organization.

Concerned Citizens For A Better Tunica County, Inc. (Concerned Citizens) is a rural broad based grassroots community leadership development, education, and training organization working to empower the community by developing new grassroots leaders and organizers in Tunica County, Mississippi. Concerned Citizens For A Better Tunica County, Inc.'s mission is to empower the disadvantaged and low income community (families) of color by building leadership and organization, involving students and parents using the intergenerational model, (young people and old people working together), in the community of Tunica County, MS.

"Empower" is defined as the effective participation of the community to impact the formation of public policy and effective participation in the decision making process in the educational, economic, political, environmental, and social change systems with a special emphasis on education policy in the Tunica School District that will help to create a first-rate quality public educational opportunity for all families in Tunica County and the country. With roots in the struggle for education justice, Concerned Citizens has evolved into a multi-issue community based organization that is led by low-income people of color.

The TRANSITION TO TUNICA TEENS IN ACTION: Tunica Teens In Action, Inc. mission is to develop young leaders, especially those from disadvantaged circumstances, who will be able to effectively participate in their community by developing the educational skills, technical skills, and understanding thru community organizing using the intergeneration model since 1993.

Tunica Teens In Action's program of work is rooted in leadership development and local community organizing that uses an inter-generation model to empower the low income communities of color. Most of Tunica Teens In Action work occurs at community trainings/workshops, at public actions to demonstrate community power, through collaborations and coalitions, social media, and in small one-on-one meetings to help educate ourselves and community.

TAYLOR NGUYEN'S ESSAY

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. OLSON. Mr. Speaker, I am privileged to interact with some of the brightest students in the 22nd Congressional District who serve on my Congressional Youth Advisory Council. I have gained much by listening to the high school students who are the future of this great nation. They provide important insight into the concerns of our younger constituents and hopefully get a better sense of the importance of being an active participant in the political process. Many of the students have written short essays on a variety of topics and I am pleased to share them with my House colleagues.

Taylor Nguyen attends Pearland High School in Pearland, Texas. The essay topic is: select an important event that has occurred in the past 15 years and explain how that event has changed our country.

During the past 15 years, America has experienced dramatic occurrences such as Hurricane Katrina and the Columbia Space Shuttle disaster. Technology such as the iPhone, has immensely improved our means of communication. However, the greatest impact on the United States was the terrorist attacks on September 11th, 2001. On this day the deaths of over 3,400 people, including police officers and firefighters, transformed the United States forever. Since 9/11, airports have been reconstructed to operate with thorough security measures, amidst the oversight of the government instituted Department of Homeland Security. Advanced searches on people and luggage have successfully prevented another hijacking on American soil. Unfortunately, the terrorists claimed devotion to Islam have ramshackled some American's views of the Muslim community.

This tragic affair became a catalyst for protection from future catastrophes. On November 25th, 2002, Homeland security was established. Not only do they inhibit terrorist strikes, but they also monitor cyberspace and oversee our borders. The department's border security techniques have been scrutinized. Yet terrorists have been detained, and eradicated (i.e. Osama Bin Laden) as a result of the department's hard work and commitment to the American people.

The sector of Homeland Security that Americans encounter most often in the Transportation Security Administration, or TSA. This department was designed to take further precautionary measures prior to boarding an aircraft. The American people have complained that TSA is time consuming, and violates an individual's civil liberties. There have even been claims of racial profiling. TSA has received negative commentary; however the overall actions are necessary for the safety of the American people.

The Muslim Community has been dramatically affected. A poll taken one month after

the 9/11 attacks by ABC news, announced that 47 percent of Americans appreciated the lives of Muslim Americans. On the most recent anniversary of the disaster, the poll was recalculated and the response was a devastating 27 percent.

Due to the terrorists claiming to be devout Islamists and Al Qaeda participants, a negative stigmatism has spread rampantly throughout the United States in the reflection of the Islamic community. Hopefully through education and understanding, Americans can welcome our Islamic community with open arms.

September 11th was a great loss for the victims' families, whose lives were forever broken, and a travesty for all of America. In the years following the attacks, America has taken a no tolerance stance against terrorism within our country and all over the world. With pride and justice, the lives lost will not have been taken in vain. They have paved a road of stronger security, and saved lives in the process. Although we have a long road ahead, we will remember, and we will build from the rubble a stronger, more valourous United States of America.

PAYING TRIBUTE TO ISMAIL
KADARE, ALBANIAN POLITICAL
EXILE FROM FRANCE AND WINNER OF THE JERUSALEM PRIZE
FOR 2015

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 14, 2015

Mr. ENGEL. Mr. Speaker, I rise today to pay tribute to Ismail Kadare, the Albanian political exile from France, distinguished Albanian author and winner of the Jerusalem Prize for 2015. Kadare is a novelist and poet who has written about Albanian history people and while delving deeply into the universal themes of freedom and human rights. He is one of Albania's most highly-regarded authors, having written about its previous totalitarian regime and Albanian culture and society. According to the panel that selected him as the Jerusalem Prize winner, Mr. Kadare "is a teller of fascinating stories who uses implied, indirect writing. He writes about collective guilt, and especially about the truth's failure to penetrate. He seeks to expose, while hiding his tracks in layers of myth and metaphor, questions for which there are no answers and crimes for which there is no atonement. Even though his subject matter and his protagonists are generally local, their significance and importance are beyond doubt universal."

Mr. Kadare's literary career is marked by several laudable achievements, such as the Academy of Moral and Political Sciences of France lifetime membership, Prix mondial Cino Del Duca award in 1992, the United Kingdom's Man Booker International award in 2005, and both the Prince Asturias Award for Literature and the Honorary Degree of Science in Social and Institutional Communication by the University of Palermo in Sicily in 2009. As a testament to the universal acceptance of his literature, Mr. Kadare's novels have also been translated into many different languages which now reach broad audiences across the globe. Such accolades and recognition only scratch the surface of Mr. Kadare's admirable commitment to exercising the sacred values of democracy regardless of the circumstances he faces.
